

#### 4. FIRE TEAM TRAINING

Our standard Fire Team training course is a full one day session, however courses can be tailored to suit your requirements and equipment.

The course is designed to be carried out on site anywhere in Kenya.

The course is mainly classroom based, but more emphasis is placed on practical fire fighting on REAL fires.

This course is intended to provide fire teams with a more advanced insight into the dangers of fire with a more intensive practical training session. Course notes and attendance certificates are provided.

#### 5. FIRE RISK ASSESSMENT COURSE FOR MANAGERS & SAFETY PROFESSIONALS

This interactive module is designed to assist managers in meeting their legal requirements for conducting fire risk assessments.

It provides a comprehensive look at the concept of Fire Risk Assessment, and focuses on those preventive and protective fire safety measures that will help to effectively reduce the level of fire risk.

The course material and handouts are used with reference to current legislation and 'best practice' guidance. Delegate understanding is tested by a short written assessment.

#### 6. FIRE RISK ASSESSMENT FOR INDUSTRY

This THREE-DAY on-site workshop is aimed at providing those with health & safety responsibilities with the knowledge and confidence to carry out a fire risk assessment in their place of work.

#### 7. FIRE RISK ASSESSMENT FOR BUILDING DESIGNERS

A basic Fire Risk Assessment seminar is available for Architects & Building Control Officers etc. The seminar highlights problems with building design which manifest themselves after completion, and how knowledge about human behaviour should play a vital role in building design.

## QUELLSMART FIRE BRIGADE TRAINING CENTRE

*Train To Quell Fire Smartly*

# FIRE SAFETY TRAINING

# BACKGROUND ON FIRE

**F**ire is the single biggest danger facing people at home, in the community and the work place, and almost all fires are avoidable. Understanding how to prevent fire, how to tackle small fires, can help save lives and property.

Current legislation in Kenya also requires employers to provide adequate training in fire awareness/safety for all members of their staff.

Fire safety is a simple easy –to-follow course. It helps families, policy makers and employees understand some of the causes of fire in the home, community and the workplace. It also explains how to use the correct extinguisher for different types of fire.

Families, communities and workers who are better equipped to prevent and deal with fires will help ensure the safety of their families, communities and their colleagues. Their increased awareness could prevent fire-related injuries and fatalities, and costly fire damage.

QuellSmart Fire Brigade Centre is a Trade Mark of EHS Consultancy Ltd a local company with its offices in Nairobi, Kenya. EHS Consultancy Ltd is recognized in Kenya as a leading authority in the field of fire safety. Its strengths are based on the combined expertise of a highly trained workforce. The company works in close partnership with a variety of organizations, companies to help make our commercial training activities form a vital part of this overall aim.

## THE AIM OF OUR TRAINING COURSES

Our courses aim to provide a greater awareness of the threat posed by fire to people, property, and business continuity. By combining the recognition of individual responsibilities to promptly report fire related hazards, and how to initiate the appropriate actions should a fire occur, the risks to employees and the workplace will be reduced.

# FIRE SAFETY TRAINING COURSES

We provide a range of fire safety and other training courses as listed below:

1. Basic fire awareness course
2. Fire Extinguisher Training
3. Fire Marshal/Fire Warden Training
4. Fire Team Training
5. Fire Risk Assessment course for Managers & Safety Professionals
6. Fire Risk Assessment Training for Industry
7. Fire Risk Assessment Training for Building Designers

If the fire safety course you require is not listed, we may be able to design or adapt a course to suit your needs.

## 1. BASIC FIRE AWARENESS COURSE

This is a 3 hour course aimed at providing the participants with a greater awareness of the threat posed by fire to people, property and business community.

The course enables the participants to recognize and fully appreciate the risk that fire presents in the workplace.

By combining the recognition of individual responsibilities to report fire related hazards and how to initiate the appropriate actions should a fire occur, the risks to employees and the workplace will be reduced.

### WHO IS THE COURSE FOR?

This course is suitable for all members of the family and staff of all types of business. The easy to follow, step-by-step format of this course means people can work at their own pace. No prior knowledge or experience is needed and there are no formal entry requirements.

## 2. FIRE EXTINGUISHER TRAINING COURSE

Our standard Fire Extinguisher course is a half day session, however courses can be tailored to suit your requirements.

The aim of the course is to train families or company staff to tackle a small fire in safety using portable fire fighting equipment. Course notes and attendance certificates are provided.

The course is mainly classroom based, but includes a practical session of fire fighting on REAL fires.

## 3. FIRE MARSHAL/FIRE WARDEN TRAINING

Our standard Fire Marshal/Fire Warden course is a full 3-5 day sessions.

This course is designed to enable your staff to meet the requirements of current fire safety legislation and associated guidance. The course is both classroom and practical.

On completion participants will receive a certificate
